### 10,000 Quit Jobs In Phone Walkout

### Only Five States Not Hit by Equipment Strike

New York, April 24 (AP)—Telephone equipment workers walked off their jobs across the nation today.

The public will not be affected immediately unless breakdowns should require repairs.

Headquarters of Division 8 of the C.I.O. Communications Workers of America ordered their 10,000 workers in 43 states and the District of Columbia off the job at 8 a. m. (E.S.T.).

States not affected are Maine, New Hampshire, Vermont, Massachusetts and Montana.

As the time zone moved west and word was spread to outlying areas, the strike took root. No picket lines were reported, however, so the 230,000 other Bell System employees went to work, assuring continued telephone service.

The strike was against the Western Electric Co., manufacturing and equipment subsidiary of the Bell System's parent corporation, the American Telephone and Telegraph Co.

Three of a complete national telephone tieup was postponed, though not eliminated, when the union said it would not picket before President Truman's wage strike ends at midnight tomorrow. The union is striking over a matter it claims is not covered by the treaty.

As States Are Affected

Reports gave this picture of the number walking out as a result of the dispute between the union and Western Electric over working conditions at a television tower installation in South Bend, Ind.:

New York state, 1,300; Illinois, 700; Michigan, 430; Indiana, 250; Ohio, 600; Utah, 100; a 12-state strike in mountain areas, 185; Louisiana, 100; Oregon, Washington and Idaho, 250; Minnesota-St. Paul, 250; Louisville, 40; Atlanta, 30.

Pittsburgh, 350; Washington, D. C., 300; Wisconsin, 100; Kansas City, 300; Columbus O., 25; Cincinnati, O., 75.

But in Baltimore a company spokesman said most of 138 workers reported, and in Syracuse, N. Y., were reported on the job.

Although the root of the dispute is wages, the immediate cause of the walkout was a minor grievance that flared into a major issue over the week-end.

This grew out of a bogus pasture near South Bend, Ind., where six division workers were building a television tower. They refused to walk through a field they claimed was deep with mud and water. And to support them, 104 local members struck.

The company claimed the mud problem was a "hoax" and that the workers were not a proper strike issue, and ordered men back to work today on pain of dismissal for contract violation.

However, the union division's national headquarters demanded the company reverse its back-to-work order or face a national strike today.

Postponement Is Asked  
Washington, April 24 (AP)—The government today asked a two-week postponement of the strike set for Wednesday on several major railroads.

### Frank Enderly, Jr., Was Riding Alone Half Mile East of Hamlet

Frank Enderly, Jr., of Milton was fatally injured about 2:15 a. m. Sunday when his automobile struck a utility pole along Route 44-55 near Clintondale.

Enderly was riding alone toward Clintondale and about one-half mile east of that hamlet his 1940 coupe failed to make a right turn in the highway and struck a pole off the left side of the highway, state police reported.

The front end of the vehicle was badly damaged by the impact and a section of the pole, which was broken in two places, landed on top of the vehicle, crushing it and its occupant, according to a report issued after investigation by state police, Coroner Ernest A. Kelly and District Attorney Louis G. Bruhn.

A verdict of accidental death from shock due to internal injury was issued by Coroner Kelly.

A resident of the area notified state police at Highland, who summoned Vassar Hospital ambulance. Dr. Sukarevich, the ambulance interne, pronounced Enderly dead on his arrival at the scene.

Coroner Kelly said Enderly might have fallen asleep while driving, although the exact cause of the accident is not known by authorities since it was a one-man, one-car accident.

The body was taken to Sutton Funeral Home of Clintondale, where funeral arrangements were not complete this morning.

He was a veteran of service with the U. S. Navy during World War 2.

### Lutzel Case to Go To Jury; Counsel Summations End

The fate of Theodore Lutzel, Brooklyn carpenter, will rest with the jury late this afternoon when the case will be finally submitted to the jury to determine whether or not Ruth Bergemann was murdered by the defendant Lutzel or whether her death last November 27 at High Falls was accidental during a struggle for a gun as the two sat in her parked car.

Testimony in the first degree murder trial was concluded last Friday afternoon and at 10 o'clock (Continued on Page 13, Col. 1)

## 'Baby Sitter' Institute Is To Be Conducted in Kingston

The home safety division of the Ulster County Safety Council will conduct a "baby sitter" training institute for group leaders on Wednesday.

From 3:30 to 6 p. m. on that day group leaders will gather at Kingston High School for instruction in various aspects of baby sitting. They will pass this instruction along to teenagers and other members of their groups who find employment in caring for babies while parents are away for a night.

Parents and other adults are invited to attend so they may learn what information to give to their baby sitters before leaving them in charge.

## Bowles Sees Huge Loss for Families by Rent Control End

### Decontrol Is Called Unwise Move; Says Changes to Hit 11 Million Families

Washington, April 24 (AP)—Governor Chester Bowles of Connecticut said today that dropping rent control would cost the nation's tenants \$1,500,000,000 a year. They would have that much less money to spend for basic necessities like food and clothing, he said.

In testimony at a hearing of the Senate Banking Committee, the Connecticut Democrat called decontrol "extremely unwise and actually dangerous." He predicted "rapid and substantial rent increases" would hit the 11,000,000 families he said controls now protect.

Bowles came here as Democratic leaders asked a score of governors and big city mayors for help in pushing an extension of Federal rent control through a reluctant Congress. As the committee opened five days of hearings on the controversial issue, telegrams went out asking these executives to testify.

Control removal, Bowles asserted, "would throw out of balance our whole price-wage structure and reopen the question of widespread wage increases."

He conceded that rent control worked a "certain injustice" on landlords.

However, he told the committee, "relieving these relative injustices from a proportionately small group (landlords) can only result in a sweeping injustice and severe hardship to millions and millions of American families."

Governor Bowles said that home building since 1946 had leveled off only one quarter of the housing shortage that existed then, and had made "no headway at all" toward meeting newly arisen needs.

Even before he left Connecticut, Bowles made his feelings on the matter clear. The former director of the nation's wartime price controls said in Hartford that rents would rise an average of about 35 per cent if ceilings were lifted.

Priest Goes to Highland  
The Rev. William Kennedy, who had been an assistant at St. Mary's Church here for 15 years prior to 1940, was recently made pastor of St. Augustine's Church, Highland, it was learned today.

He went to the Church of the Holy Name in New York from St. Mary's and was transferred to the Highland church last week to replace the Rev. John Elgin who went to Mt. Katonah. The Highland parish also includes Milton.

## G.O.P. Men Would Cut Foreign Aid

Amendments Are Ready to Cut Measure by as Much as Billion Dollars

May Be Shelved

Tydings Says Threat Prompts Move to Get Full Approval

Washington, April 24 (AP)—Senate Republicans today lined up a series of amendments to cut the \$3,732,000,000 foreign aid bill by as much as \$1,000,000,000.

While they were pressing their drive on one side of Capitol Hill, a faltering economy campaign seemed slated for a sidetrack in the House, at least temporarily.

In the foreign aid debate, Senator Kern (R-Mo.) proposed the billion-dollar slash, saying in a week-end statement that it would be "folly for us to continue to throw our money around like drunken sailors."

Senator Hickenlooper (R-Iowa) proposed a \$600,000,000 cut, telling reporters that red-baiting at home is increasing and "we've just got to stop spending more than we take in."

Senator Tydings (D-Md.) made it clear that the administration is counting on the world threat of communism to speed approval of a foreign aid authorization.

In the House, a \$237,000,000 veterans hospital bill had priority over a big appropriations bill which was debated all last week.

Opposed by Administration  
The hospital measure, one of several big money bills that Congress will grapple with this week, is opposed by the administration.

President Truman withheld funds authorized once before by Congress for the hospitals.

The bill directs the Veterans Administration to go ahead with construction of 16,000 additional hospital beds for veterans. They would be in 24 new facilities and in 14 existing hospitals.

The omnibus appropriation bill, which has been momentarily set aside would provide \$23,000,000 for operation of more than 40 federal agencies for the fiscal year starting July 1.

Republicans have called for reductions of at least a billion dollars in the appropriation measure but their drive for cuts has been unable to get up steam.

The House thus has made reductions totaling \$8,700,000, or less than one per cent of the amount of the items considered.

Major sections of the bill remain ahead and may not be disposed of until early next month.

Sentiment Is Strong  
Strong sentiment has developed for amendments to increase, rather than reduce, the bill, particularly the sections dealing with national defense, public hospital construction, and flood control projects.

The House will consider no other bills except the hospital measure until the appropriation bill is sent to the Senate.

But its Ways and Means Committee will continue work on a tax revision bill which House leaders hope to have in shape late in May. The committee already has tentatively approved slashes of \$335,000,000 in excise taxes and may hike that total to around \$1,000,000,000 before it finishes.

President Truman has asked for excise cuts of \$655,000,000 but wants the tax loss more than offset by increases in levies on corporations and by plugging tax loopholes.

The committee has done nothing yet in the way of increasing federal income.

## Hughson Is Hurt When Hit by Car's Handle of Door

Big Indian Resident, 40, Is Taken to Hospital at Margaretville; Man Is Arrested

Roy Hughson, 40, of Big Indian was critically injured when the door handle of a passing automobile caught his arm and threw him to the pavement on Route 28 at 5:50 p. m., Sunday, State Trooper Ray Dunn reported.

Hughson and his wife, Helen, were walking along the highway between Pine Hill and Big Indian when the accident occurred. The automobile continued without stopping, but its driver was arrested when he passed the accident scene about an hour and a half later, Trooper Dunn said.

After first aid treatment by Trooper E. J. Devine of Margaretville, Hughson was taken to Margaretville Hospital. Doctors reported to Dunn after examination that Hughson suffered a compound fracture of the left arm, a broken right leg and multiple lacerations of the face. His condition is critical, according to the hospital's report to Dunn.

The broken door handle was found near the scene of the accident by Trooper Dunn.

Dunn reported that he was searching a ditch on the left side of the road for further evidence about an hour and a half after the accident, and while he was doing so an automobile with a door handle missing passed. Dunn stopped the car and, he alleged, found that the handle, which he found fit the broken stub on the car.

He arrested the driver, Leandro Lopez, Jr., 19, of 122 West 99th street, New York city, on charges of leaving the scene of an accident and reckless driving. Arraigned before Justice of the Peace Raymond C. Smith of Phoenix, Lopez was fined \$50.

A description of the hit-run vehicle was furnished troopers by Albert Kilmer, a brother-in-law of Hughson, who lives a short distance from the place where the accident occurred. It was a green colored 1946 Oldsmobile sedan, owned by Lopez's father, troopers said.

Lopez, Jr., was staying at the Hotel Santiago at Pine Hill with his father and mother, and was returning to the hotel when he was stopped by Trooper Dunn. Dunn said Lopez told him that he became panicky after he realized Hughson had been struck.

## Chiang Evacuates Hainan Island; Accusation Made

Sino General Says Chiang 'Sacrificed' Isle to His Own Ambitions for Power

By STANLEY RICH  
Yulin, Hainan Island, April 24 (AP)—All Hainan was the Chinese Communists' for the taking today, handed over by order of Chiang Kai-shek.

The generalissimo's order for "total evacuation" of the big island gives the Reds nearly half the remnants of his once vast Nationalist China.

The decision to give up the 13,500 square mile stronghold off South China had not been announced officially here. My information came from a general, one of the top officers charged with Hainan's defense.

This general accused Chiang of "sacrificing" Hainan to his own political ambitions.

He said Chiang refused to send reinforcements because he feared the growing strength and popularity of two of Hainan's defenders—Gen. Hsueh Yuch, the military commander-in-chief, and Marshal Chen Chi-tang, the governor.

(The Defense Ministry on Formosa said only that fighting continued east of Hainan, the fallen capital, and near Linke Cape, 40 miles west. Opinion in Taipei was that the Nationalists would abandon Hainan and attempt to remove as much war material as possible rather than defend the southern part of the island.

The island still could be held if (Continued on Page 2, Col. 5)

## President to Deliver Nationwide Radio Talk to Federal Bar Members

Washington, April 24 (AP)—President Truman was reported today to be drafting a reply to Senator McCarthy's charges of communism in the government—charges termed "mad and vicious" by Secretary of State Acheson.

Senator Tydings (D-Md.) heads the Senate Foreign Relations Subcommittee investigating McCarthy's accusations against the department. Senator McMahon (D-Conn.) is a member of the group, which called a closed meeting today to discuss the inquiry.

Mr. Truman is scheduled to make a nationwide broadcast tonight (NBC, 10 p. m. E.S.T.). His speech to the Federal Bar Association is expected to be a defense of the government's loyalty program, target of a drumfire attack by McCarthy, who calls it grossly inadequate. The loyalty program is designed to keep Communists and subversives out of government jobs.

Mr. Truman already has called McCarthy one of the Kremlin's greatest assets. There was no advance indication whether his address tonight will deal with McCarthy's specific accusations, but the speech was described as an intended answer to the senator.

Acheson's sharp criticism of McCarthy was in an off-the-record speech he made Saturday night before the American Society of Newspaper Editors. Part of it was made public by the State Department last night.

Didn't Name McCarthy  
The secretary did not name McCarthy but everyone knew he was talking about him.

The right way to try to find subversives in the State Department, Acheson said, is through the loyalty program set up by his predecessor, Gen. George C. Marshall.

"The wrong way," Acheson added, "is to smear everybody's reputation; to make charges on the basis that, if one is not right, you try to find another one you (Continued on Page 2, Col. 7)

## Demolition Work Will Start Tuesday

Demolition work on the remaining buildings in the Broadway crossing project area is scheduled to start tomorrow morning, J. J. Dempsey, construction superintendent for Lipsitt Inc., said today.

Dempsey also announced that a section of Clinton avenue near the point where it intersects Greenkill avenue would be closed to traffic starting today. The detour sign was placed at Sterling street. The section line now being dug goes to its greatest depth near the intersection.

The demolition workmen will start on the former tavern property near McGill's entrance and the former O'Reilly building, Dempsey said.

Latest in Series  
Acheson's speech was the latest of a series by him which add up to a campaign to get the American people to join in a total effort to win the cold war. He said such a vast undertaking requires economic and political action on a world scale and the development of the defenses of the free world "wisely and prudently."

But above all, he said, it requires that the American people demonstrate that their own "faith in freedom is a burning and a fighting faith."

In discussing the objectives of the United States in the cold war, Acheson told the editors that "we do not propose to subvert the Soviet Union."

"We shall not attempt to undermine Soviet independence," he said. "And we are just as determined that communism shall not by hook or crook or trickery undermine our country or any other free country that desires to maintain its independence."

## 'Invasion' By Youths Is Seen Likely

Move Is Expected to Be Focal Point of Soviet Spring Plan in Cold War

U. S. Won't Yield

Acheson Speech Reports This Nation Adamant Against Threats

Washington, April 24 (AP)—The highest U. S. officials believe the Russians will try again next month to drive the western occupation powers out of Berlin.

They say this expected effort, in the form of an invasion of the city's western zones by a half-million German Communist youths, will be resisted to the limit, including the use of machine gun fire if necessary.

Preparations to resist the threatened push on May 27-29 are being made by American, British and French authorities in Germany. A high government source here said the West will not yield an inch if the young Communists stick to the marching plans. They have made some conflicting statements as to their intentions.

President Truman and Secretary of State Acheson look to the prospective Berlin incident, responsible officials said today, as the focal point of the present Russian spring offensive in the cold war.

World Capture City  
They regard the maneuver as a Soviet-Communist effort to capture the city by intimidation—by frightening the West Berliners with a massive Hitler-like show of force to demonstrate that the western powers are unable to protect them.

In Acheson's view, the Soviet's Berlin plan apparently is part of a broad pattern of Kremlin-directed moves to create new tensions and fears of war in the West and thus force the western nations into negotiations and new concessions to Russia.

Another piece in this pattern, as Acheson reportedly sees it, includes the recent Baltic plane affair in which Russian fighters allegedly shot down an unarmed U.S. plane, plying planes over the open waters of the Baltic Sea.

"That the United States has no intention of yielding to Russian pressure was made clear by Acheson in a speech here Saturday night to the American Society of Newspaper Editors. There can be no approach to an East-West armistice until the 'unless one idea is done away with' and that is the idea of aggression."

He defined aggression as meaning "not only military attack but propaganda warfare and the secret undermining of free countries from within."

## Golemis Pays \$65 As Game Violator

A total of \$65 was paid by Emanuel Golemis, 16, of 885 Metropolitan avenue, Bronx, in a civil compromise on two alleged game law violations.

Golemis was charged by Conservation Department officials with hunting without a license and with illegally shooting at a deer last Sunday morning, April 16.

The charges grew out of an investigation which began after state police and Golemis accidentally shot and killed his hunting companion, Paul Maratos, 23, of 1172 Morrison avenue, Bronx, near Woodland Valley.

Golemis was not blamed for Maratos' death, which was officially ruled to be accidental by Coroner Michael Gullotta, but Conservation Department officials entered the case when they learned the two men had been hunting deer out of season.

The civil compromise—a usual method of disposing of game law charges—was worked out before Justice of the Peace Raymond C. Smith of Phoenix Saturday afternoon. Golemis paid \$12.50 for hunting without a license and \$52.50 for illegally shooting at a deer. Trooper Ray Dunn and Conservation Department officials were present during the hearing.

Funeral services will be held at the A. Carr and Son Funeral Home, 1 Pearl street, on Tuesday at 2 p. m. with burial in Montrose Cemetery. Friends may call at the funeral parlors between 7 and 9 this evening. Mr. Phillips was a member of the Brotherhood of Railroad Trainmen. He leaves his wife, Dorothy Ehrengruber Phillips; four daughters, Mrs. Edward Trepel, Kingston; Mrs. Austin Simmons of Saugerties and Mrs. Donald Smith of Monticello Park, Cal.; two brothers, Herbert Phillips of Park Ridge, N. J., and John Phillips of Hoboken, N. J.; also a sister, Daisy Ottens of Emerson, N. J., and four grandchildren.

The funeral of Daniel F. Sheehan of 24 W. O'Reilly street was held from the Henry J. Bruck Funeral Home, 27 Main avenue Saturday at 10 a. m., thence to St. Mary's Church where a solemn high Mass of requiem was offered for the repose of his soul at 10:30 a. m. The Rev. John A. Flaherty, P.R.V.F., was the celebrant and the Rev. John A. Flaherty acting as deacon and subdeacon. The Rev. James A. Dunnigan was seated within the chancel. Responses to the Mass were sung by the children's choir assisted by Theodore Riccobono at the organ. Friday evening a large delegation from St. Mary's Holy Name Society called and was in the recitation of the Rosary by the Rev. Edward I. Farrelly. The Rt. Rev. Msgr. Martin J. Drury and the Rev. James A. Dunnigan also called and said prayers for the dead. Burial was in St. Mary's Cemetery where the Rev. Father Farrelly assisted by Father Dunnigan gave the final blessing.

Decorations — Mrs. George Moore, chairman; Mrs. Myron Horne and Miss Anne Welch. Floor — Mrs. Samuel Perry chairman; Mrs. George Bishop and Mrs. Eugene Simoncini.

## Two Minor Crashes Reported to Police

Two slight accidents were reported to the police over the week-end.

Jeanette Brandon, 22, of 37 Chambers street, was treated for multiple injuries at Kingston Hospital Sunday. She was admitted at 1:12 a. m. and police said she had been riding in a car which left the road and struck a tree on Hurley avenue. Her injuries were listed as laceration of the forehead and right eye, fractured clavicle and possible concussion.

A head-on collision on Broadway near the Canfield building was reported at 11:20 p. m. Saturday. Officers Francis Fagan and Charles Hoching reported that Frank W. Lyons, 537 Main street, Poughkeepsie, was driving north on Broadway and George Edward Bloom, 411 1/2 Washington street, was headed south on the street when they collided. Both cars were damaged, but no injuries were reported.

## Poughkeepsie Driver Fined as Too Noisy

Earl K. Van Leuven, Jr., of 2 South Clinton street, Poughkeepsie, discovered early Sunday morning that it doesn't pay to drive about town making odd noises.

A gadget described by police as a whistle attached to the exhaust pipe of the Van Leuven car was disturbing the peace along Foxhall avenue shortly after midnight Saturday when the racket drew the attention of Officers Francis Fagan and Charles Hoching.

The officers gave chase and caught Van Leuven at Foxhall and Haverbrouck avenues and arrested him as a violator of the city's anti-noise ordinance. He was released on \$5 bail which he forfeited when he failed to appear in court. City Judge Raymond J. Mino today.

The police report said a door of the patrol car which chased Van Leuven was damaged.

## St. Mary's Society Plan Communion, Breakfast May 14

Committees were announced today for the annual corporate communion which will be held Mother's Day, May 14, at the 8 a. m. Mass in St. Mary's Church. Breakfast will follow at 9 a. m. in the school auditorium.

Members of the Rosary Society have extended an invitation to all members and ladies of the parish to participate in the communion and breakfast.

Chairman of the breakfast committee is Mrs. John O'Rourke, who said that tickets were selling at a brisk rate and requested members and friends to make reservations at an early date.

The Rev. John A. Flaherty, moderator of the Rosary Society, has promised an interesting speaker who will be announced later.

Under the direction of Mrs. O'Rourke and Mrs. F. Daniel Haloran, co-chairman, the following committees will be in charge of the affair:

Admission — Mrs. Charles Ahl, chairman; Mrs. Christopher Tierney, president; Mrs. Peter Golemis, Mrs. Vincent Carputo and Mrs. Angelo Majack.

Decorations — Mrs. George Moore, chairman; Mrs. Myron Horne and Miss Anne Welch.

Floor — Mrs. Samuel Perry chairman; Mrs. George Bishop and Mrs. Eugene Simoncini.

## Financial and Commercial

New York, April 24 (AP)—Prices broke more than two points today when a sudden selling wave swept through the stock market.

Offerings were heavy enough to put the quotations taut as much as two minutes behind floor transactions during an 11-minute period.

When the excitement died down, a recovery movement set in with enough strength to bring a long list of issues up from their lowest points and push a few to the plus side.

Armco Steel ignored the whole thing with a gain of around a point after directors declared a dividend of 75 cents on common as against previous payments of 62 1/2 cents quarterly.

Quotations by Morgan Davis & Co., members of the New York Stock Exchange, 80 Beaver street, New York city, branch office, 41 John street, R. B. Osterhoudt, manager.

## Employers to File For Approval of Disability Plans

Approximately 175,000 employers throughout the state may immediately begin filing with the Workmen's Compensation Board their application for approval of plans submitted in compliance with the state's new Disability Benefits law.

This announcement has been made from New York by Miss Mary Donlon, chairman of the board and administrator of the \$10 million-a-year non-occupational disability benefits program. Application for approval may be submitted for both new and existing plans. Miss Donlon announced that certificates of insurance forms, known as DB820, are also ready and that they too may be filed immediately by insurance carriers for employers insured by them under the Disability Benefits Law. Certificates of insurance are filed by insurance carriers for employers who provide through insurance benefits the same as the statutory benefits set forth in Section 204 of the law, benefits that are "at least as favorable," or benefits greater than statutory benefits. If a certificate of insurance has been filed by an employer, the filing of an application for acceptance of a plan is not required unless specifically requested.

## Public Hearing Set For Kerhonkson Water

A public hearing on the application of the Kerhonkson Water Company, Inc., to increase its water rates will be held by the Public Service Commission at the Kerhonkson Fire Hall at 11 a. m. Tuesday.

The water company has asked for an approximate 30 per cent increase in water rates. Opponents of the increase have retained Philip Korn, Kerhonkson attorney, to represent them before the P.S.C.

The hearing was originally set for February 28, but was postponed to the present date at the request of the water company.

A large number of water consumers are expected to attend the meeting and arrangements are being made to supply as many additional seats as possible in the fire hall.

### Water Reserves Rise

New York, April 24 (AP)—The city's water reserves rose to 80.5 per cent of capacity yesterday. A year ago reserves were 88.7 per cent filled.

## How Important Is This Man's "YES"?

G. CARPENTER

He's the man whose "yes" helped to put an ambitious boy through medical school.

Another occasion, his friendly "yes" started a man in business and today that man's business is a growing, paying proposition.

And then there was the time his "yes" enabled a worried family to get from under a stack of unpaid bills and his friendly advice put that family's budget on a sound, secure basis.

This man whose "yes" has brought peace of mind to thousands of people by helping them get a fresh start is the manager of the Personal Finance Co. office in this city.

His job is to make personal loans, and to keep the transactions on a business-like basis. His years of experience with Personal have taught him to respect the honesty of local people—friends, relatives, or employer are not brought into the picture.

Don't borrow unnecessarily. But if a loan—for a month or a year, or longer—is the sensible thing for you (and you're the judge) the YES MAN will appreciate the chance to say "yes."

You can telephone him . . . or drop in to see him at the Personal Finance Company office. He says "yes" to 4 out of 5.

### PLANE DISPUTE WITH RUSSIA

U. S. authorities think Soviet aviators shot down the Navy plane long missing in the Baltic area. Moreover, they believe the attack came over the open sea, not over Russian-Latvian soil as the Soviet Union has charged.

Our officials unquestionably are measuring their words carefully. They would not make so grave a charge if they weren't reasonably sure of their ground.

To us in this country it would have been bad enough were the Russian story correct: that Soviet flyers had fired upon an American plane which was flying illegally above Soviet territory. We would not attack a foreign plane under similar circumstances.

But a brazenly brutal assault upon a defenseless plane observing all territorial restrictions is of a far worse order. Yet no one can pretend there is really any surprise in this behavior. In this day of the police state, callousness toward human life is common.

From their first seizure of power, Russia's leaders have relied upon a variety of sub-human practices to maintain themselves entrenched.

Even by their own bestial standards, however, it was a colossal piece of effrontery to decorate the four Soviet airmen who fired upon and apparently knocked down the missing Navy plane. The ceremony obviously was rigged for American consumption. The Russians not only are brutal; they're proud of it.

What's the answer to this kind of depravity? Should we, as Senator Briggs suggests, arm patrol planes to the teeth and send them out in search of trigger-happy Russians? Then we might quickly touch off a world war nobody wants.

Much as we might like to exact a human price from Russia for its cruel action, we can't do this. As the military, political and moral leader of the free world, we have a responsibility to act firmly but correctly in all matters affecting international relations and the peace.

This does not mean appeasing or knuckling under to Soviet bullying. If Russian aviators continue to go beyond their borders in search of trouble, they should get the response in gunfire that they deserve. For it would then be plain they want war.

But, lacking convincing evidence on that score, we should seek to avoid tempting the Russians to show us how crudely primitive they are. If there is ultimately to be any conflict with the Soviet Union, at least let it not come from our being goaded into action by some possibly avoidable incident. In those circumstances the question always would exist whether or not the struggle could have been averted.

### EAR BENT TO POLITICAL WINDS

Evidence is pretty strong that Mr. Truman crossed up some people when he vetoed the Kerr Bill to exempt independent natural gas producers from regulation by the Federal Power Commission.

Informed quarters say that the version of the bill adopted in Congress not only had the President's endorsement; it was put into acceptable shape at the White House. The indications were plain, according to these sources, that Mr. Truman would sign such a measure.

General belief around the capital is that the President yielded to tremendous pressure brought by groups who feared the bill meant higher gas rates to consumers.

The bill's sponsors, including a lot of staunch Democrats upon whom Mr. Truman must count on for support, must certainly be angry at this turn of events.

But the consumer who possibly stood to suffer from this bill is little concerned with their wrath. He's undoubtedly thankful that men who understand how sensitive the President is to political winds stirred up enough breeze to convince him a veto was wise.

### STANDARDS OF LIFE

Americans are accustomed to a constantly rising standard of living. Two yardsticks may be used to measure the standard of living:

1. The quantity of goods and services available for the earned dollar;
2. The number of hours of work that is required to purchase a unit of any commodity; say a loaf of bread, a shirt, a pair of shoes, a bottle of milk, etc.

Neither of these yardsticks has much to do with quality, but that has been assumed. Generally speaking, as the standard of living improved, the quality of goods was improved because of competition. During the war, both the quantity and quality of goods declined. This was to have been expected and was accepted as good grace. It was a sacrifice the people made for the war. For example, they were served the category of beef known as commercial, suitable for sausages, etc., but not for the private kitchen. And they took it. However, after the war, prices continued high because wages and taxes remained high. In fact, wages, both immediate and postponed, rose. So, prices rose. (Postponed wages include pensions and social benefits which are not immediately paid to the worker but are loaded on to the price.)

The public had had a bad market for buying during the war period. They were short of all sorts of necessities as well as luxuries, and buying became wild for time and then a resistance set in. The manufacturers met that by new models, new gadgets, new designs, but not always with the same or improved quality. In fact, there is a suspicion that in actual quality, one is not getting his money's worth.

Now, something new is happening. Stimulated by E.C.A., with the hope of producing more dollars, all sorts of alien-made products are being poured into this country. Watches, cameras and woollens are the first to feel the impact, but it will hit all consumer goods industries. I saw an advertisement recently of British-made lawnmowers.

This is not a simple question that takes a yes or no answer. We cannot go on subsidizing countries and yet, if we are not to subsidize them, they must sell goods where they can. If they sell too much in our market, they will throw some of our industries into distress and lots of workers out of jobs.

Even if we undertake to aid our wards in the most friendly and encouraging manner to sell their wares in our markets, this will sooner or later become a political problem in this country and more opposition is to be expected from the labor unions than from businessmen. The Ito, which is now popular with sectors of labor, will surely become a plague to this country politically when the effects of it are clear.

Today, some of the labor leaders still believe that some kind of equalization might be worked out between labor costs in our country and in European countries. Such equalization is a false hope. European prices will remain low to bring more dollars with which the Europeans can buy durable goods, raw materials and food.

A damaging factor is the tax-free goods manufactured in Puerto Rico. For instance, a Puerto Rican ceramic manufacturer has a 12-year holiday from all taxes. Also, The Puerto Rican Development Company helps to finance such enterprises out of the return of excise taxes on Puerto Rican rum from the government of the United States. Furthermore, so far as I can learn, the present minimum wage for a Puerto Rican pottery worker is 20 cents an hour. The minimum in the United States for the same worker is 75 cents.

And then there are the taxes to add. I do not know the answer to all this. It involves great national and international issues. It requires full, objective study. Instead, it is all mused up in party politics, aimed at the 1950 and 1952 campaigns.

Some say: Solve it by putting American workers on relief and put the manufacturers on a subsidy. That is not a solution. That is making a bad situation worse. Unless the Administration comes up with something better than that, the tariff will be a big issue in the next two campaigns. It is moving that fast.

### ALLERGY IN INFANTS

When we think of allergy (sensitiveness to various substances) we usually have in mind asthma, hay fever, head colds, and urticaria (hives), and stomach and intestinal upsets. And most of us have in mind only adults. When we think of the distressing symptoms caused by allergy in adults we can understand something of what parents must feel as they see their infant or small child show symptoms of allergy.

In "Medical Clinics of North America," Dr. John A. Bigler, Professor of Pediatrics and Head of Department, Northwestern Medical School, states that the earliest symptom of allergy in the infant seems to involve the stomach and intestines, with the skin and throat with development of asthma. Dr. Bigler suggests that when the physician first sees an infant he should obtain the family history by asking questions about skin rashes and eczema, hay fever and asthma. This may help him as he tries to prevent symptoms of allergy in the infant at present and in the future.

The following symptoms should make physicians and parents suspicious of allergy in infants:

- (1) Vomiting and diarrhea.
- (2) Colic and gas which follows certain foods. Orange juice is one of the commonest early offenders; milk allergy often will not show skin symptoms for from four to eight weeks.
- (3) Excessive hunger even when sufficient food is given.
- (4) Inflammation of the tongue.
- (5) Intolerance of, or inability to take milk, orange juice, cereals, egg, vegetables, fruits, meats and potato.
- (6) Severe reactions to silver nitrate, mercury and iodine.
- (7) Skin rashes, skin eczema, chafing of skin (neck and armpits, groin) raw buttocks, rashes on face, trunk, arms and legs.
- (8) Rubbing of nose and sneezing.
- (9) Frequent head colds with cough.
- (10) Croup, bronchitis, asthma.

It is likely that many of us have seen youngsters with several of these symptoms, but did not suspect allergy as the cause.

Although Dr. Bigler outlines treatment for allergic symptoms, a lot of time and suffering of the child can be avoided by having the physician examine the child and have a talk with the parents as to their own and the family's history of allergy. Treatment can then begin.

Considering the number of fires caused by lighted cigarettes carelessly thrown away, there might be some justification for reviving this old German law and requiring each lighted cigarette to be protected by a screen.

## The Washington Merry-Go-Round

By DREW PEARSON

Washington—One of the biggest income-tax cases in the midwest is now on pins-and-needles, following a White House phone call.

The case is that of a Missourian, Irving Sachs, who operates "Shoes Styles" in St. Louis, and who has been recommended by the treasury for tax-fraud prosecution. Sachs fudged on his income tax to the tune of more than \$100,000, and officials say that the fraud is clear-cut and indisputable.

When the case first arrived at the Justice Department, Justice lawyers planned to forward it as a routine matter to the U. S. attorney in St. Louis from criminal prosecution. But suddenly they got a phone call from the White House. The White House did not want the case to be held up, merely that the Justice Department confer with Sachs's newly appointed attorney, H. Schwimmer of Kansas City.

Such a conference between attorneys is not unusual. However, it is interesting that Sachs, though living in St. Louis, took the trouble to go to Kansas City to hire a new attorney. Furthermore, the attorney he retained is close to Tom Evans, Harry Truman's most intimate Kansas City friend.

Since then, the Sachs tax-fraud case has been delayed, perhaps indefinitely, on the ground that Sachs is too ill to stand trial.

Doctors retained by Sachs have stated that he is suffering from advanced epilepsy, that the ordeal of a trial would kill him. An independent doctor, however, not connected with the Sachs family, states that although Sachs suffers from epilepsy, a trial would not endanger his life. He is 51 years old.

All this, incidentally, came to light after the attorney from Kansas City was retained.

Note 1.—Treasury and Justice Department officials do not relish hastening the death of any evader. But it has almost got so that an old man or an invalid can violate the tax laws with impunity—provided he can get a doctor to state that a criminal trial would endanger his life.

Note 2.—Last January President Truman sent a message to Congress in which he took the laudable position of urging full and

vigorous income-tax collection with prosecution of tax frauds. Probably he does not realize it, but telephone calls by his assistants to the Justice and Treasury Departments frequently nullify that message to Congress.

### Who Said That?

Man's memory is short. It was only a few short years ago that many distinguished and conservative Americans were praising Russia as a wartime partner, and urging cooperation after the war.

Printed below is what some of these Americans said. If you read their quotations while holding your hand over the names at the bottom of the column, it's doubtful if you could guess the authors. However, printed below are the names of the men or newspapers, by number, who made these statements. See how many you can guess correctly.

1. "The world situation at the present time indicates that the hopes of civilization rest on the worthy shoulders of the courageous Russian Army. . . . the scale and grandeur of this effort marks it as the greatest military achievement of all history!"

2. "The continued cooperation between the United States and Russia is so essential to future world peace that no remaining differences can be permitted to interfere with it."

3. "We can do business with Stalin! And that business will help our political relations with the Russians, besides a tenth part of the way to higher living standards in Russia."

4. "If Europe moves all the way to communism, it will not be because of Russian intervention, but because of the obstructionist tactics of dis-hard reactionaries."

5. "In Russia's fight to survive as a nation lies the great hope of the world for easy peace."

6. "The Russians have been consistently turning right, in the right direction. . . . Russia is likely to come out of the war the greatest democracy in the world."

7. "Stalin is opposed to world revolution and was sincere in his dissolution of the Comintern."

8. "We can do business with Russia to the mutual benefit of both countries and the lasting peace of the world."

9. "I feel confident that we are

on the threshold of a post-war period of collaboration in the fullest sense of the word. . . . I am confident Marshal Stalin will agree that, when victory is finally won, it will be our duty to transform this fighting alliance into a concordat dedicated to peacetime construction and to the betterment of the commonweal."

9. And speaking of quotes, here is one by a famous senator, that Harry Truman doesn't want him to forget. "I think it is peculiarly desirable that there be just as little dissension as possible of foreign policy between the executive and the Congress, between the executive and the Senate, between the Republican party and the Democratic party."

Price supports on hogs, barley, and soybeans will be restored as soon as Congress authorizes more money. The bill still hasn't passed the Senate. . . . Live wire Mike Di Salvo, popular mayor of Toledo, Ohio, is picking up strength in his primary battle against Joe Ferguson. Both are Democrats and both want to defeat Taft. . . . The four big veteran organizations—American Legion, V.F.W., Armvets and the Disabled American Veterans—have been maneuvering to get control of General Aniline, the giant German Film and Dyeing Corporation seized by the government during the war. However, President Truman has vetoed the idea, believes that to give the German firm to any one group would be against the law. . . . Southwest dust storms will not cause another "dust bowl" as in the 1930's. Soil conservation has covered most of the area with grass.

The British, when asked why they send arms to the Arab States point out that the Arabs have unequivocally declared themselves on the side of Great Britain and the United States in the cold war, whereas Israel has publicly announced strict neutrality.

The Civil Service of America have long done a patriotic job sending supplies to European school children. This is the kind of people-to-people friendship which helps prevent war in the long run.

U. S. Gives Warning Incident Won't Be Allowed Similar to 1936 Episode

By DAVID LAWRENCE

Washington, April 24—War between the United States and Russia could break out next month if the Soviets want to make an issue involving actual violence.

They now have been warned by the American government that if the proposed youth demonstration of Communists invades west Berlin, there will be "resistance"—first by ordinary police measures such as tear gas and then, if necessary, by machine-gun fire.

This is the first time since the "cold war" began that the public has learned of any explicit warning that the armed forces of this country and her allies will be used to ward off what will be considered an organized act of aggression.

Coming, as the warning does, on top of Russia's recent attack on an unarmed American plane, it means that the United States and her allies will not allow any episode to occur similar to that which happened in November 1946 when Hitler, testing out the nerves and will-to-flight of Great Britain and France, sent his troops into the Rhineland with two kinds of orders—as his since been learned—to push ahead if no resistance was offered and to retreat if there was opposition.

Ever since then the diplomats of the world have debated whether Hitler could have been curbed effectively in the Rhineland if the allies had been resolute. There will be no such debate this time if similar testing tactics are tried by Moscow.

For it can be stated on the highest authority that the United States government has reached a momentous decision. It is that there are times when an announcement of intended resistance becomes necessary so all may know: If the challenge is offered it will be accepted even though serious consequences may ensue.

Russia made a dangerous decision in answering the American "cold war" last week. She denied responsibility for the attack on American citizens engaged in a peaceful journey over the Baltic Sea. Russia had a chance to propose a further investigation perhaps by some international tribunal which could examine the facts and testimony and thus move the issue out of an immediate crisis. But she did the other way and now she has aroused the entire American government including the leaders in Congress. No better example of "war mongering" has been given the world than Russia's clear avoidance of historic methods of handling a serious dispute. Its mistake in judgment may help to set the stage for another mistake in connection with the Berlin demonstration.

## AS PEGLER SEES IT

By WESTBROOK PEGLER

In the five years since the death of Roosevelt, great progress has been made to discredit him, his wife and those of his progeny who have, with characteristic effrontery, continued to trim huckers in their old man's name, to exploit his grave as a pitchman ballyhoo, an embalmed whale, and to exploit the superstitions of the faceless man as candidates for the governorship of California and New York. It has been an itching progress against a mountainous mass of ignorance, bigotry, conspiracy, and guilt. The Communists have been deeply implicated in the effort to maintain the Roosevelt myth. All concerned on that side have taken advantage of certain political special interests for another mistake in connection with the Berlin demonstration.

Roosevelt was not the United States nor the Government of the United States. He was not elected king. Yet his conduct in office was so wilful, vain and loud that he left the nation subject to the Russian veto by his own considered declaration. By Roosevelt's master of our fate, the turn of the satellites, syrophants and dupes was still impressive on the anniversary of his tragically belated end. It is true also that John T. Flynn and other almost faultless journalists have picked, hacked and blasted away much of the fraud upon the people, their posterity and history. They have forced his widow toward the last stand before complete abandonment of the pretense and frank avowal of her true character and sympathies. The day will come when patriots will profane the core of the Hyde Park hospital, every prison guards in the N. Y. penitentiary system.

Twice, Miller was married. The first time was to a woman named Grace Tully, one of Roosevelt's secretaries, blurted the fact that

and began to seek due process she was called upon by Mrs. Roosevelt's secretary, Malvina Thompson, who then also commanded John J. Glavin, Mrs. Miller's lawyer, to come to her apartment in Greenwich village. Mr. Glavin states that Miss Thompson spoke in a threatening way of blackmail and perjury, because a young wife and mother of spotless reputation was about to seek a remedy in court. Mrs. Miller herself recently said she felt that she had been denied full justice. She had desired drastic action but had settled for a legal separation.

In the meanwhile, three distinguished or at least pretentious New York lawyers, all of them briefless in this case, nevertheless butted in. Mr. Glavin says one of them abused him noisily. Miller's lawyer said none of these three represented his side. Glavin says he certainly didn't invite them in. Two of them have refused to say who their client was, while Charles Poletti, a New York politician, made no answer.

What has all this to do with the fate of this nation? If those concerned on the Roosevelt side would speak as frankly on these

subjects as they pretend to speak on others, we would better know how to judge this woman's attitude toward communism, which portends not only social, economic and political disaster but derogates family integrity as an affection.

In a recent television show she argued that her husband's crime at Yalta was but an act of restitution in giving Stalin Manchuria, Port Arthur, the Chinese Eastern Railroad and a fortress island, a continent in miniature, to the north of Japan. To be sure, the Japanese had taken these from Russia in 1904, but that was how Russia got them from China only ten years earlier. The logical next step in her argument would be that Alaska should be returned to Russia because we said, "I'm a date" and couldn't convey a valid title. Earnestly, I say, I expect to hear this from her as she is gradually divested of her mythical grandeur, dignity, wisdom and simplicity. Already, twice, she has defended Alger Hiss, convicted by implication of acts tantamount to treason. In September, 1949, she defended Paul Robeson, who had said he would not oppose Russia in a war with this country and only lately she tried to use him in her propaganda show.

On the first occasion, E. M. Blighers, a printer, in Houston, Tex., made public, boldly on his own stationery, a letter to her which had acquired renown both for its plain strength and its dramatic summary of shocking truth.

"Defense of Robeson was to be expected," he wrote. "Never a chip from you when Reds and left-wingers break up public meetings."

## Firemen Check Blaze, Threatened Oil Tanks

Fire which threatened oil and kerosene storage tanks with a total of 40,000-gallons was extinguished by Accord firemen Saturday.

The fire, which was possibly caused by the backfire of a truck, damaged the oil-soaked wooden loading platform which surrounded the tank, but the flames were knocked down with hose streams before the tank itself was damaged, firemen reported.

The tank was on the property of the William Anderson feed store in Accord. Firemen were under the direction of Fire Chief Howard Anderson, brother of the feed store owner.

The alarm was sounded about 8:30 a. m. Saturday.

On their arrival, firemen found flames "licking" the tank and quickly spread water through fog nozzles from booster tanks. The fire had already gained too much headway for the use of chemical extinguishers, firemen said.

There was no damage except to the loading platform itself, according to the firemen.

## New Skyscraper Boom

New York, (AP)—Construction of new office buildings being completed in New York this year rivals "several of the most fabulous years in the history of skyscrapers," says Lee Thompson Smith of the Home Title Guaranty Co. in the firm's monthly bulletin.

"This year, with 4,208,000 square feet of new office space being placed on the rental market," Smith says, "it is way above 1925's 1,474,700 and 1927's 1,183,700. It is just about one building away from the 1926 mark of 4,817,000, right on the heels of 1928's 4,362,800, and makes a good showing against 1929's 5,324,900." He reports that rents in the new building ranges close to \$7 per square foot.

Feather-bedding scheme of Firemen's Union to put an additional fireman on diesel locomotives has been

# CONSIDERED TWICE!

Fact Finding Boards appointed by Presidents Roosevelt and Truman have said these demands were "devoid of merit!" and they were

# REJECTED TWICE!

Now the Firemen's leaders seek to paralyze railroad transportation to compel the railroads to employ a wholly unnecessary additional fireman to ride on diesel locomotives. This scheme is plain

# FEATHER-BEDDING!

LEADERS of the Firemen's union have called a nationwide strike starting with four great railroads on April 26. These railroads are the New York Central, Pennsylvania, Santa Fe, and Southern.

The union claim that a second fireman is needed on grounds of safety is sheer hypocrisy. Safety has been dragged into this dispute only in an unsuccessful effort to give a cloak of respectability to vicious feather-bedding demands.

After a careful study of the first demands of this union, a Presidential Fact Finding Board on May 21, 1943, reported to President Roosevelt that there was no need for an extra fireman on diesel locomotives.

Again, on September 19, 1949, after a second hearing on the union leaders' demands, a second Board reported to President Truman that: "there presently exists no need for an additional fireman... upon either the ground of safety or that of efficiency and economy of operation."

Safety Record of Diesels is Outstandingly Good Although the railroads accepted the Board findings, the union leaders have brazenly rejected them. They represent that an extra fireman is needed for "safety" reasons. Here's what the

Board had to say on that point:

"The safety and on-time performance of diesel electric locomotives operated under current rules have been notably good..."

"Upon careful analysis of the data submitted on safety, we have concluded that no valid reasons have been shown as a support for the Brotherhood proposal under which a fireman would be required to be at all times continuously in the cab of road diesels. The proposal must be rejected."

The real reason behind these demands is that the union leaders are trying to make jobs where there is no work. In other words, a plain case of "feather-bedding."

The railroads have no intention of yielding to these wasteful make-work demands.

## "The Safety Record of Diesels is Outstandingly Good..."

—PRESIDENTIAL FACT FINDING BOARD REPORT

Read these excerpts from official reports of Presidential Fact Finding Boards:

"The safety record of Diesels is outstandingly good, and it follows that the safety rules now applicable have produced good results."

"The safety and on-time performance of Diesel-electric locomotives operated under current rules indicates that Diesel-electric operation has been safer than steam locomotive operation..."

Remember! These are not statements of the railroads. They are just a few of the many similar conclusions reached by President Truman's Fact Finding Board which spent months investigating the claims of the Union leaders.

REPORTERS BEGIN AT THE END.

It's an all-on-Christmas bet that De Maupassant, perhaps the greatest short-story writer of them all, wouldn't last a week as a reporter on a present-day newspaper. Let me try to tell you why.

News stories, with few exceptions, have little or no suspense because the reporter or rewrite man deliberately crams the important facts into the first sentence or, failing this, into the first paragraph, succeeding paragraphs usually taper off in importance and for a very good reason—if the story has to be shortened for reasons of space, it's easier to cut "from the bottom up."

"This, of course, is the exact opposite of the keep-em-guessing treatment used by the De Maupassants and the Hemingses, and to give you an idea of the difference in the two techniques, let me take a recent news story which appeared in a midwestern paper and write it as if it were a piece of fiction."

One Saturday afternoon not long ago, a night watchman named Stan Mikalowsky was window-shopping with his five-year-old daughter, Wanda, and as they passed a toyshop the child pointed excitedly to a doll nearly as big as she was. It had red hair, eyes that moved and a soft rubber skin which looked almost human.

The figure on the price tag was only a dollar less than the watchman's weekly pay check, and his first impulse was to walk away, but when the youngster refused to budge he struggled and led her into the store.

When Stan got home and unwrapped the doll, his wife was furious.

"We owe the butcher for three

weeks and we're ten dollars short on the room rent," she said, "so you got to blow in a week's pay for a toy."

"What's the difference?" said the night watchman. "Doll or no doll, we're always behind. For once, let the kid have something she wants."

One word led to many others and finally, while Wanda was in the bedroom playing with the doll, Stan put on his hat and stomped out of the house.

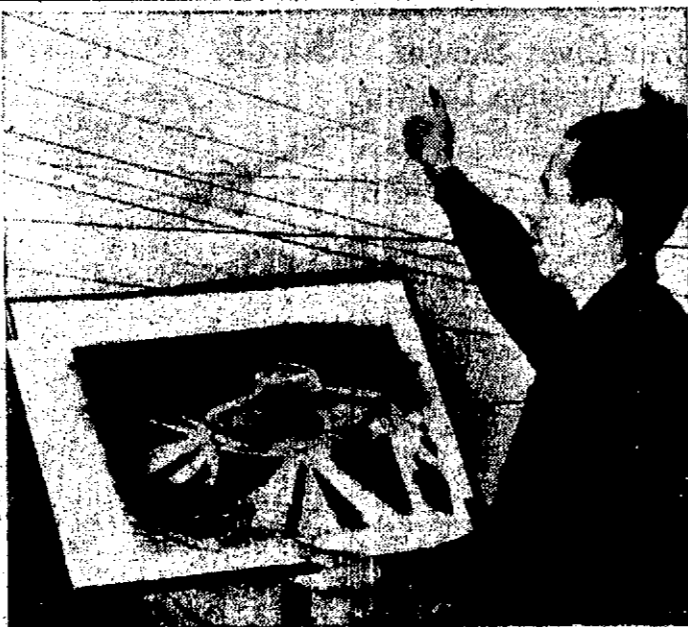

Mrs. Mikalowsky led the child and put her to bed with the doll next to her, and then, worried about Stan, decided to go looking for him at the corner bar and make up with him. To keep his supper warm, she left the gas stove on, and in her haste threw her apron over the back of a chair in such a way that one of the springs landed close to a burner.

Fifteen minutes later when the Mikalowskys came rushing out of the bar, their frame house was in flames, and firemen had to forcibly restrain the father from rushing in to save his daughter.

"You wouldn't be any use in there," a cop told him. "Don't worry, they'll get her out." Firemen Joe Miller, himself a father, climbed a ladder to the bedroom window, and the crowd hushed as he disappeared into the smoke. A few minutes later, coughing and blinking, he climbed down, a blanket-wrapped bundle in his arms.

To illustrate the difference between the two techniques of storytelling, the local newspaper headlined its story of the fire with the line which a De Maupassant would undoubtedly have saved for the finish—

"Fireman Rescues Life-Size Doll as Child Dies in Flames." (Copyright, 1950, by Billy Rose)

## Speaker at Bard Urges Support of Union for Atlantic

Annandale-on-Hudson, April 24.—Paxton Blair, New York attorney and former New York State Supreme Court Justice, urged support for the program of Atlantic Union in an address today before the fourth Bard College International Student Conference on United States foreign policy.

"Its creation is necessary," Blair said, "if for no other reason, because of the confusion of thought in the President's Cabinet. The State Department speaks of 'integrating Europe' but one cannot integrate the democracies and the Soviets. We cannot collaborate with tyranny."

The conference held its first session on Friday evening, April 21. Thirty-eight foreign students from more than 30 foreign countries are participating in the general sessions and in the panels on the political, economic, and cultural aspects of our foreign policy. Official observers have been sent by the United Nations and by the United States Department of State to follow the discussions. Other speakers at the conference are Ernst Schwarz, executive secretary, Committee on Latin-American Affairs, C.I.O., Thomas H. Werdel, Republican Congressman from California and member of the House Committee on Education and Labor, and Olive Remington Goldman, top ranking United States delegate to the United Nations Commission on the Status of Women.

The conference concluded Sunday, with a pilgrimage to the home of the late Franklin Delano Roosevelt at Hyde Park.

## Do You Remember

by SOPHIE MILLER

Two interesting newspapers were left at the Recreation Center for me by Leon Studt of 773 Broadway. One is a Kingston Daily Leader of Thursday, April 14, 1898, the other a Kingston Daily Freeman of Saturday evening, August 6, 1904.

Those were the days when both newspapers carried advertisements on their front page in the center of which was the news. The Freeman had want ads on the left side. One of the ads read:

"Wanted: Porter—one of experience, Mansion House." Another "Board Wanted: Elderly lady; modern improvements, no children. Address, 11 Staples St."

On the other side is a big ad of "Fred I. Cox Co., 311 and 313 Wall St., Kingston—Fair and Square Daylight Store." They were selling beautiful lawns and gingham at 10 cents a yard. Ladies' black lace hose were going for 12 and a half cents a pair. Lot of long skirts, drawers and corset covers at 39 cents. Some of the long skirts trimmed with three rows of lace insertion and ruffled edged with wide lace were special at \$1.98.

Kingston Coal Co. on Thomas St. near Broadway advertised "There is nothing equal to our Cannon Coal for the grate and D. & H. Lackawanna for the heater." Banta of 327 Wall St. advertised ice cream and ices for dessert. The ad read: "Successor to Mrs. C. D. Dodge. I am sure I remember Dodge's ice cream. In the real estate front page section, W. C. Hamilton of 293 Wall Street had, 11-room house, near Broadway, with built-in suitcases for two families, \$2,400. I wonder what it's worth today?

Lambert J. DuBois of 7 Broadway in his real estate ad had such bargains as: "Brick house, eight rooms, \$800, or East Chester street, seven rooms, \$950." He also was known as a pension agent as well as insurance and real estate broker and had two telephones, Hudson River phone 118-2, and Standard phone 680.

His ad also stated "All soldiers of the Civil War would do well to see me. Pension business promptly attended to." W. S. Johnson & Co. at 240 Fair St. had not only houses for sale, but he advertised houses for rent. He had one house on Tremper avenue, all improvements, with set gas range at \$20 per month. New house, on Downs street, all improvements, rents for \$17. Perhaps someone is looking for an apartment, no doubt one room in those same houses cost that today.

The Kingston Consolidated R. R. Co. had their time-table in

the paper, when C. Gordon Reel was general manager. It says in part: "Kingston City cars, 10 minute time, 7 a. m. to 9 p. m., 20 minute time, 6 to 7 a. m. and 9 to 12 p. m. Mary Powell car leaves Marius street 5:30 a. m., head of Wall street 5:40 a. m., down Kingston City line."

Colonial cars, 10 minute times 8 a. m. to 9 p. m., 20 minute time to 9 a. m. All Kingston Point cars carry bags. Well, they made good time in those days, and they could, for if anyone was on their trolley track, the motorman dinged his foot bell until he had a free track to go sailing along.

Autos and horses just had to keep out of his way, and he didn't have to pull up to the curb either. Remember, when you sailed along on a summer trolley uptown, just nobody got in the way for the motorman wasn't lazy with his bell. Now our poor big buses have to crawl around the many cars, and pull up to curbs, and anyone can get in front of them. I wonder what would happen if they had a special horn or siren and had the right of way on city streets.

### Children Require Love and Security, Junior Wives Told

Children and infants need love and the feeling of "being wanted" in order to thrive, Miss Esther Schisa of the Ulster County Health Department told a meeting of the Junior Married Women's Club Thursday evening.

Miss Schisa said the growth of a child comes from within and the only way for parents to build self-confidence in their children is to let each one do the things he is ready for. Babies must learn by trial and error, she said. They actually work at their play in preparation for their life in an adult world.

Miss Schisa urged parents never to let a child feel rejected. A film was shown concerning a child who had been labeled "a problem" by well-meaning relatives, but who actually was merely going through the necessary stages of poking and prying and "getting into everything."

At the business meeting, plans were laid for the Spring Dance, which will be held May 20 at the Wiltwyck Golf Club.

Refreshments were served by Mrs. George Anderson, Mrs. Frank Lavatsch and Mrs. Raymond Garraghan.

It was announced that the decorating committee had many surprises. Reservations should be made by telephoning Mrs. Albert Gruner (1071-M) or Mrs. Howard Fox (3784-M).

The program of the Kingston All-Grade Orchestra concert Friday evening at Kingston High School Auditorium will include soloists as well as orchestra selections, it was announced today.

The first part of the program will feature selections by the brass, reed and percussion groups, some brass specialty numbers, violin solos, group string work (with more than 100 string players) and the advanced ensemble.

At intermission, the audience may step outside the auditorium, or may remain to hear a recital of clarinet, violin and trumpet solos.

The second half of the program will include the full orchestra, which has a personnel of 200, but which the leader, Miss Lulu-May Roberts, expects to total perhaps 180 children, or fewer, because of unavoidable absences.

The children range in age from eight to 13 years old, and are in the second to seventh grades.

### Rose Marie Marabella Becomes Bride Of Theodore Davidson in St. Joseph's.

MR. AND MRS. THEODORE EDWARD DAVIDSON (Zimmer Photo)

Miss Rose Marie Marabella, daughter of Mr. and Mrs. Thomas J. Marabella, 136 Bruyn avenue, was married April 18 in St. Joseph's Church to Theodore Edward Davidson, 343 Washington avenue, son of Walter Davidson, of Glen Falls, and Mrs. Lucile Davidson, 343 Washington avenue.

The Rev. John Simmons officiated at the double ring ceremony. The church was decorated with white lilies, gladioli, snapdragons, and candles burning on the side altars. Soloist Anthony Bonaccelli sang "Panis Angelicus" and Ave Maria. Mrs. Frank Rafferty was organist.

Given in marriage by her father, the bride wore a white satin princess-style gown, with a square neckline and short sleeves. The neckline and center panel of the gown were outlined with applique medallion trim. The edge of the sleeves was trimmed similarly as were the tops of her long white satin mitts. The full skirt ended in a long train. Her fingertip veil of illusion was caught to a bonnet-shaped headpiece of lilies of the valley. She carried a white prayer-book with white ribbons and lilies of the valley.

The maid of honor, Della Brown of Alwood, wore a gown of baby blue tulle with an overskirt and stole of nylon net, and matching bonnet and mitts. She carried a cascade of red roses and baby breath.

The groom was graduated from Glen Falls High School and the Franklin School of Science and Arts of Philadelphia. He served overseas during his one and a half years with the Army Medical Corps. He is now employed at the Kingston City Laboratory.

For traveling, Mrs. Davidson wore a navy gabardine suit and navy princess-style coat, with white accessories and a corsage of white lilies. Upon their return, they will live at 296 Wall street.

The bride was graduated from Kingston High School and Our Lady of Victory School of Nursing. She is a staff nurse at the Benedictine Hospital.

Miss Lorraine Cordeau and Miss Paula Davidson, sister of the groom, both of Kingston, were bridesmaids, and wore gowns of pink chiffon with wide berthes, shirred fitted bodices, side pockets, full skirts, and matching bonnets and mitts. They carried cascades of daffodils, lilies and baby breath.

W. Clement Davidson, Upper Bay street, Glen Falls, brother of the groom, was best man, and usher were Harold Acker, East Kingston, cousin of the bride, and Gerry LaVelle, of Highland.

After a reception and buffet lunch at Rosemarie Cabin for 150 guests, the couple left for a wedding trip to Pennsylvania, Washington, D. C. and Virginia.

### Choir Gives Shower For Virginia Brower

The Sanctuary Choir of the First Baptist Church gave a surprise bridal shower Wednesday evening in honor of Miss Virginia Brower, daughter of Mrs. Marvin Brower, 117 South Manor avenue. Both Miss Brower and her mother are members of the choir.

After the regular rehearsal, the choir returned to the Church School Hall, ostensibly to try over some new music with the piano. There a table laden with gaily wrapped packages and a chair decorated by the Junior Choir with pink and blue streamers awaited the guest of honor. After the opening of the gifts, refreshments were served.

Among those present were the Misses Arlene Crow, Mabel Terwilliger, Winifred Kimball, Edna Martin, Ethel Martin, Lillian Healy, Mary Bell and Mrs. Marvin Brower, Mrs. Verne Bohne, Mrs. Andrew Canissario, Mrs. Harry Gumaer, Mrs. Annette Roosa, Mrs. Harry Terwilliger, Mrs. Irving Crowell, Mr. and Mrs. Erwin Crow, Mr. and Mrs. Sherwood Lasher, Mr. and Mrs. Leland Kimball, Mr. and Mrs. Lester Decker, Rev. Nelson Munson, Richard Matthews, Joseph Barryann, David Lasher and Robert Ackert.

Miss Brower will be married soon to Robert Ackert son of Mrs. Gilbert Ackert of Cottage Row.

### Personal Notes

Miss Annette Albany, daughter of Mr. and Mrs. John Albany, 48 Cedar street, will sail tomorrow aboard the S. S. Atlantic for Italy where she will spend three months visiting Naples and Rome.

Mrs. Adam H. Porter, regent of the Wiltwyck Chapter, D. A. R., Mrs. Ruth K. Friedel, chairman of the D. A. R. Junior Group, and Miss Elizabeth Schoonmaker have returned from Washington, D. C. where they spent last week attending the D. A. R. Continental Congress. Miss Schoonmaker acted as platform page.

Philip F. Zacheo, 25 Clinton avenue, has been elected to associate membership in the Society of Sigma Xi, honorary scientific organization at Union College, Schenectady, where he is a student.

James Willis Daniels III, son of Mr. and Mrs. James Daniels of 43 Garden street, celebrated his second birthday at a party for several of his young friends Sunday afternoon. Guests were Nancy Taylor and Russell Wilber, Betty Lou and Richard Thomas Williams and Cheryl Lee Thomas. Parents also attending were Mr. and Mrs. Harry Wilber and Mr. and Mrs. Irwin J. Thomas.

### HOME BUREAU

Mrs. William Powers of Kingston will represent the Ulster County Home Bureau at the fourth citizenship leader training school to be held by the New York State Federation of Home Bureaus May 9-10 at Cornell University.

Dr. E. A. Lutz, professor of public administration, and Dr. C. A. Bratton, associate professor of agricultural economics, are co-directors of the two-day school which will meet in Warren Hall, College of Agriculture.

The project was undertaken for the fourth year because of requests from county home demonstration organizations to the State Federation Citizenship committee. Already 34 counties and one city have registered a citizenship leader to attend the school. The leaders carry information from the training course back to their counties and cities where they train leaders to conduct the work in Home Bureau units and at community meetings.

Subjects on the program this year include: How local government handles your money; procedures in assessment of real property; valuing property for tax purposes; equalization of assessments by county supervisors and natural make-up of the state and federal taxes; revenues from state and federal taxes.

### Rummage Sales

The Gem Society of Clinton Avenue Methodist Church will hold a rummage sale in Epworth Hall, corner of Clinton avenue and Liberty street, Thursday and Friday, with doors open at 9 a. m. The sale also will continue Friday evening.

### Girl Scout News

Kingston District G. S. Leaders Workshop  
The Girl Scout Leaders Workshop meeting will be held tonight at 7:30 at St. Peter's School. Mrs. Robert Teetzel will teach feltcraft. Leaders who plan to attend are asked to bring a needle with a large eye, scissors, a ruler and some yarn.

## Studies Typhoons

Tokyo (AP)—A wind tunnel used to improve designs of Japanese warcraft has gone into peacetime operation to help typhoon research. The 75-foot diameter of the tunnel at Osaka University is reputed to be Japan's largest. A 1,000-horsepower motor produces a 200-mile-an-hour wind. Bridges and other structures are being studied for the most typhoon-resistant types.

## Proclamation

Governor Thomas E. Dewey has issued the following proclamation:

## Mental Health Week

New York State has led the country, in fact the entire world, in appreciating the crucial importance of caring for the mental health of its people. This problem becomes of greater and more insistent importance every year.

Many kinds of serious anti-social behavior are manifestations of emotional maladjustment. Only recently the report of a special research project made us poignantly aware that it is at the root of the appalling number of sex crimes of which in many cases little children are the victims.

The degree to which the lives of our people are warped by mental and emotional difficulties is staggering. We know that mental health is essential to happy, productive living; and yet by reliable estimates one person out of every 10 suffers from some form of emotional maladjustment severe enough to require eventually the services of a psychiatrist. One in 12 will at some time in his life enter a mental hospital.

The mental hospital system of the State of New York today is the largest and best in the world. We maintain 27 institutions in the Department of Mental Hygiene which provide modern medical care for more than 115,000 patients. For this purpose the legislature has appropriated \$107,000,000, the largest operating budget in history for a state mental hygiene program.

The problem of public mental health is being approached in New York state in a broad preventive program operating at the community level. Under the Mental Health Commission all state and local resources are being mobilized and integrated to develop community clinic facilities, expand research, provide training for psychiatric specialists, and educate the general public in the principles of good mental hygiene.

The Department of Mental Hygiene has operated for many years a system of traveling child guidance clinics which now serve some 155 communities throughout the state. In addition, mental hygiene clinics for both adults

and children are conducted by personnel of state hospitals and schools, many in cooperation with local agencies. All of these activities are being expanded and coordinated with the Commission's over-all community program.

Public interest and enlightenment are essential to progress in the field of mental health. Toward this end a group of state and national organizations concerned with mental health is sponsoring a campaign during the week of April 23 for better understanding of mental hygiene principles and the problems of mental illness.

NOW, THEREFORE, I, Thomas E. Dewey, Governor of the State of New York, do hereby proclaim the week of April 23-29, 1950 as MENTAL HEALTH WEEK in New York State and I ask for the cooperation of the communities, civic organizations and individuals of the state.

GIVEN under my hand and

the Privy Seal of the State at the Capitol in the City of Albany this 23rd day of April in the 11th year of our Lord one thousand nine hundred and fifty.

THOMAS E. DEWEY  
(Signed) James C. Haggerty  
Secretary to the Governor

## Railway Sleeper

Rangoon (AP)—Alarm seized passengers when a train running between the sacred Burmese city, Mandalay, and Hadaya, 12 miles away, came to an abrupt halt and the engine began to sputter. They wondered if they were to be victims of bandits and rebels. Several yards ahead, a still object lay across the track. The engine crew, with the train's military escort, hurried forward to investigate. They found a man—fast asleep. They booted him in to wakefulness and demanded an explanation. He said he was a L.S.I. year of our Lord one thousand nine hundred and fifty.

Prisoners of Russians  
Strasbourg (AP)—Several hundred Alsace-born youths, who were pressed into service with the German army after Hitler annexed Alsace-Lorraine in 1940, are still being held as prisoners "somewhere in Russia," local officials say. Most of them were still at school when the Nazi panzers swept into their rustic villages along the Rhine and in the foothills of the Vosges. Today the conscripts from Alsace and Lorraine find themselves pawns in the cold war between the western powers and Russia.

# Colonials Trounce Bangor, 11-5; Will Look Over \$5,000 Bonus Catcher

## Cincinnati Red Scout Makes Offer; Porter Batting Star on Saturday

Bangor, Pa., April 23—Rain washed out today's scheduled game between the Kingston Colonials and the Class D home club of the North Atlantic League.

Harvey Porter, minor league veteran who is counted on as one of Kingston's solid performers for the 1950 pennant race, emerged as the hero of the Colonials' thumping 11 to 5 victory in Saturday's contest.

Porter, the camp comic and a veteran of five years in organized baseball, delivered a base-clearing triple in the ninth inning after a previous run-producing single for five RBIs during the contest.

The Colonials led 6-5 when Porter delivered the triple to deep left center.

Porter's blast enabled Ernie Burke, Negro right hander, to pick up the decision. Irving Zirnuck, Edgemere, L. I., southpaw, was the Colonial starter.

Shortstop Ralph Matzer, who figures to appear in utility roles for the Colonials this season, was in charge of the squad in the absence of Manager Emil Gail.

**Option Two Players**  
(Developments in Lakewood, N. J., this morning included the optioning of Joe DiLorenzo, catcher, and Pitcher-Outfielder Ernie Burke to St. John's, Quebec, of the Canadian Provincial League. Burke was picked up as a free agent by Kingston last season after his release by the Poughkeepsie Chiefs.)

Angelo Scarpa, left fielder, and John Muscic, third sacker, collected a couple of hits each for Kingston.

(Manager Emil Gail reported today that Frank O'Rourke, top Eastern scout of the Cincinnati Reds was due in Lakewood today with a \$5,000 bonus offer and a pitcher. Gail said he was still hopeful that some sort of working agreement could be reached with the National League club. The name of the \$5,000 bonus pitcher was not revealed. The sales price was reported as \$1,000 plus option of purchase by the Reds.)

**Scarpa Clicks**  
Angelo Scarpa, the center field hopeful, capitalized his opportunity Saturday with a pair of hits and two runs batted in. Joe Aspromonte, the player figured most likely to start in left field for the Colonials, was benched to give Scarpa a workout.

Bangor led 5-3 at the end of six innings. The Colonials tied the count at 5-5 in the seventh and picked up an additional counter in the eighth.

Al Gardella, one-time stormy petrel of the North Atlantic League, was at first base for the Colonials and delivered one hit in three trips to the plate.

**Army Injury Shelves Yanks' Allie Reynolds**

Philadelphia, April 24 (AP)—The New York Yankees' ace right-hander, Allie Reynolds, is on the shelf for about four days with an ailing pitching arm.

He complained of a stiffness in the elbow yesterday. Dr. Sidney Gonor, team physician, diagnosed the trouble as "inflammation from a sprain" and told him to take it easy for the next four days.

Reynolds accompanied the Yankees here where he will undergo diathermy treatments.

**W. Alexander Dies; Georgia Tech Great**

Atlanta, April 24 (AP)—W. A. Alexander, who came to Georgia Tech in short pants 44 years ago and stayed to win national acclaim as a football coach, died in his sleep yesterday.

"Coach Alex," as he was known to thousands of friends and admirers, was 60 years old. He was athletic director and head of Tech's physical education department at his death.

Alexander, the first man to carry grid teams to the four major bowls—Rose, Sugar, Orange and Cotton—surrendered head coaching duties to Bobby Dodd after the 1944 season. He had been at the helm of Tech's football team since 1920, when he succeeded his own coach, the late John Heisman.

Never able to make the grade as a player, Coach Alex left little to be desired as a coach. He held the Stagg Award, was picked by the Southern Conference coaches in 1939 from the Naacole Banner Award, was named coach of the year in 1942 and received the National Touchdown Club Award in 1948.

## Rocca's Opponent on Saturday

Miguel Torres, Mexican Bad Boy, former heavyweight champion of Mexico, will meet the sensational Argentine Rocca in the main event Saturday night, April 29, at the municipal auditorium. The Torres-Rocca contest will feature Rocca's amazing back-breaking technique against one of the roughest characters in the mat game. The supporting card will feature outstanding names like Golden Superman, Harry Finkelstein, Kola Kwariani, Nick Paidousis, new Greek star, Les Ruffin and Ace Freeman. Tickets can be reserved by calling the Tommy Maines Sport Shop, 6039-J.

**• Bagatelles:**  
The question we are asked most frequently these days: "What are the Colonial prospects for 1950?" Offhand, we'd say, "100 per cent better than in 1949." The team has a sound outfield, a good infield, adequate pitching. The big question mark is the catching department and Manager Emil Gail should solve that problem by May 2.

Can you ever recall a baseball opener like 1950? The season was two days old and established stars like Mel Parnell, Don Newcombe, Ellis Kinder, Vic Raschi, Ed Lopat, Larry Jansen and Allie Reynolds had been knocked for a loop. Warren Spahn and Johnny Sain survived for the Boston Braves against the Giants but the stuff they showed, if repeated, will never qualify them for men of distinction. The Yankees and Red Sox scored runs like a couple of corner sanding squads. It didn't seem funny when the Fort Ewen man said "Maybe the Giants could use Clarke Mains." Maybe.

**• Flotsam and Jetsam:**  
Danny Cunha, the Siena College basketball coach who is considered something of a relic because he still thinks basketball has a defense, exhibited a smooth oratorical delivery in appearances before the K.A.A. and the Town of Esopus Legion dinner for the junior basketball program. P. J. Beichert, the original "Shit" of local sports, outlying and Kingston's pioneer sports announcer, proudly showed us around the Legion building, but cautiously refrained from bringing up the subject of the New York Giants.

Tommy McNelis, the official scorer for the Colonials, is preparing a brochure on "Bud" Culliton for the Fordham Ram, the university's campus publication.

**• Rumors Are Flying Department:**  
The ink had hardly dried on the newspaper account of Danny Perlmutter's release by the Colonials when we heard:

(1) Danny was trying to catch on with the Poughkeepsie Chiefs.  
(2) Perlmutter would manage and play with Stauble's Bakery in the City Baseball League.

The former Colonial outfielder has not denied the second rumor and has not commented on the first. We learned through the Colonial League grapevine that at one time Danny could have had the managerial post at Waterbury. Eventually, it went to Johnny Morris of the Poughkeepsie Chiefs.

**• Of Men and Mice:**  
Miguel Torres, the former Mexican champion who faces Argentine Rocca here next Saturday night, claims that his great grandfather was a Lieutenant with the famed bandit, Pancho Villa. Is there anybody in the house to dispute it? Zachary Chumak, a 187 average bowler, recently rolled a 290 single in a Poughkeepsie league. Tom Horton conceded to us in the barber shop that he hasn't touched a golf club this season. Carmen Donato, former N.F.A. hurler, is trying out with the Poughkeepsie Chiefs and Jack Robinson of Newburgh has been named president of the Central Hudson Board of Approved Officials.

Independent League cronies tell us that Joe Brown's recent 220 was his first "200" game in two years. . . . H. Newman Culver, son of Mr. and Mrs. Theron Culver of Kingston, will run the half mile events for the Union College track squad in his senior year.

Dr. Gardner Bump, formerly of the New York State Conservation Department, is scheduled for a six months trip to the Far East in quest of desert-bred game birds suitable for introduction in the United States. Can't you just hear Edmund Gilligan, the Woodstock expert, growling. Gilligan has been ranting and raving against the pheasant as a "furriner" since time immemorial.

The Cordis Rose challenge to the Kingston Police Department for a baseball battle this season is warming up. Since the cops are without a suitable opponent for the annual classic, the Cordis towners said they would gladly accommodate them in a diamond duel. The Cordis challenge included the old stock line "anytime, any place." How about that, Moll Leonard?

The major league season is only a few days old but before you realize it, you'll be tending the old egg line. "Any combination of 30 straight Giant wins and 30 straight Brooklyn losses will give the Durochemen a tie for the pennant."

How about the downtown Yankee fanatic (no coaching from the audience, please) who took \$175 to \$75 when the Yankees were trailing the Boston Red Sox 9 to 0. And won.

## 170-Average Star Clicks For Totals Of 557, 559, 568

Shirley Hein, Utica, Rolls First "600"

A Rochester stenographer, Helen Carr, is the new all-events leader in the state women's bowling tournament after heavy week-end firing at the Bowlatorium.

Rochester keggers scrambled the standing board in several divisions.

Miss Carr, a 172-average bowler, totalled 1684 with steady pocket blasting that produced 557 in the team event, 559 doubles and 568 singles.

Twenty four hours earlier, winsome Shirley Hein, of Utica, a 95-pound fireball artist, had captured the fancy of the crowd with a 1683 total.

En route to her temporary lead, Miss Hein, who averages 160, fired 501 in the team event, 616 doubles and 546 singles. The 616 in the tandem was the first "600" blast in the tournament to date.

**Gets Fast Start**  
Miss Hein had the house rocking Saturday afternoon when she launched her doubles with a 220 solo and kept pouring in strikes for a 230 in the middle set. She tailed off a bit in the last game with 166 but it was enough to give her the first "600" in the meet and the temporary lead in the all-events.

Both Miss Carr and Miss Hein are enthusiastic keggers who roll in a couple of leagues each week. For Miss Hein it was the first "600" of her career.

Eleanor Bursay, of Cooperstown, former doubles and all-events champion, rolled 1644 for fourth spot in the nine-game division. Carmen Schwenger, Rochester, former singles titleholder, shot 1630 each to tie for sixth.

**Beacon Team First**  
Pagones of Beacon took over the Class C team leadership with a 2265 series on the last squad last night. The Dutchess pinsters hit games of 672-768-825, Rachael Carhart hit with 521.

A poor start balked the powerful George T. Manning Insurance Company's bid for first place in Class A team event. After an 804 opener they rocketed back with 838 and 860, second highest game in the tournament, for a 2602 overall, good for second place.

Pete Quills, two-time champions, had even worse sledding in the opener with 719 but rallied nicely with 857 and 880 for 2456 and sixth place. Simmonds Press of Rochester crushed 2445, Hendee's Pies 2418, Empire Recreation of Newburgh posted 2422 last night with 809-821-792. Muel Brandel was high with 521.

Smalley Theatres of Cooperstown hit 2350 for third place in Class B. Wilcox Paper, Syracuse, had 2341. John's Restaurant, Rochester, 2313. Hob-Nob Inn, Schenectady, 2311 and Rochester Maid, 2308, to land on the standing board in Class B.

F. Brodner-R. Ziegler, Rochester, cracked 993 for fifth in B doubles. Ethel Drea-Anne Jerger, Rochester, shot 878 for seventh.

Several changes were noted in the A doubles with Lucille Arioli and Mary Finzer of Rochester posting 1087 to tie for fourth place. Betty O'Connor, Daisy Wright, Elmira, had 1078 for sixth. Gerry Nelson-Shirley Hein, Utica, 1069 for seventh; Jane Farnsworth-Ruth Smith, Rochester, 1048, ninth, Helen Carr-Anne McPeak, Rochester, 1043, tenth.

**Ex-Champs Click**  
Marilyn Swimler, Elmira, cropped up as the new Class B singles leader with a score of 529. She rolled games of 203-174-178.

Jane Murphy, of Utica, 1948 all-events kingpin, cracked 588 for second in A singles and Eleanor Bursay, Cooperstown, tied for third with 580.

Three other keggers besides the Misses Carr and Hein landed on the standing board in the all-events. Eleanor Bursay, Cooperstown, 184-187-174-545. Shirley Hein, Utica, 176-192-178-546. Beatrice Holecck, Elmira, 187-179-175-541; June McNutt, Johnstown, 202-177-179-538. Peg Hegnauer, Poughkeepsie, 222-146-169-537, Ruth Legler, Rochester, 144-181-208-533.

# Torrington to Replace Paterson in League

The Paterson, N. J., franchise of the Colonial Baseball League will be dropped and Torrington, Conn., will move in as the sixth team in the Class B circuit, according to word reaching Kingston today. The league revision will be made at an important meeting scheduled today in Waterbury. Paterson officials notified President John Scali over the weekend that the lighting system at the New Jersey park would not be ready within the two week limit set by the league. The Paterson club was scheduled to play on the road for the first two weeks of the campaign.

**Good Baseball Town**  
The acquisition of Torrington one of the best semi-pro baseball towns in the East, figures to strengthen the Colonial loop. The club will have an excellent park and an adequate lighting system. Rumors of a wholesale shake-up in the official staff of the league could not be confirmed. The shift to Torrington leaves the Colonial League with four teams in Connecticut—Waterbury, Stamford, Bridgeport and Torrington—and two in New York, Poughkeepsie and Kingston.

## Major League Roundup

By JOE REICHLER

Associated Press Sports Writer

Give the Boston Nationals another reliable starting pitcher and you can start making World Series reservations at Braves Field for next October.

Five games may not be a true standard, but they've given the following indications:

1. The rebuilt Braves boast one of the hardest hitting clubs in the National League.
2. The outfield is the best since Manager Billy Southworth took over five years ago.
3. Pitcher Johnny Sain, ace of the 1948 championship squad, definitely is on the comeback road after a poor '49 season.
4. First baseman Earl Torgerson, one of the best in the league with a shoulder separation, is fully mended.
5. The big winter deal that brought outfielders Sid Gordon, Will Marshall and Shortstop Buddy Kertz in exchange for infielders Eddie Stanky and Alvin Dark has improved the club at least 25 per cent.
6. Del Crandall, 20-year-old sophomore catcher, appears headed for first base.

**Drop First Game**  
The Braves lost their first game of the infant season yesterday when they bowed to Philadelphia, 6-3, after winning the first game of the doubleheader, 4-3. The opening game triumph was their fourth of the campaign.

The split dropped the Braves into third place. Chicago's surprising Cubs, ranked out of their game with St. Louis, remained on top with a 3-0 rating. Rain also washed out the Brooklyn-New York Giants game. In the only other National League activity, Pittsburgh ran up its fifth straight triumph, vanquishing the winless Cincinnati Reds, 5-4. It was the fourth straight loss for the Reds.

Chicago's White Sox handed Detroit its first defeat of the season, 5-4. It was the Sox' first victory in five starts. The Tigers had won four straight.

The Boston Red Sox and Philadelphia Athletics divided a doubleheader. The A's won the opener, 9-4, and the Sox came back to take the nightcap, 12-2. The game was halted after six innings because of darkness.

## TRAINMEN BRIGHTEN INJURED LAD'S LIFE

Twice a day, Winky Willard, 6, stands beside railroad tracks outside his home near Ventura, Calif., and smiles and waves to crew of a passing freight train. His left ankle is encased in a cast, result of a painful injury. To brighten his long convalescence, the trainmen now are tossing him packages of comic books, candy bars and other goodies on almost every trip. If you don't think they're succeeding, take a look at that heart-warming smile at right. (A.P. Wirephoto)

## JACOBY ON BRIDGE

### Defensive Leads Can Backfire

By OSWALD JACOBY  
Written for NEA Service

The habits you form in defensive play are not necessarily helpful when you are declarer. One player found this out the hard way in a recent team match.

When this hand was played in a team match, the bidding was the same at both tables.

In both rooms, the West player opened the queen of hearts. The defenders rattled off three heart tricks and then shifted to clubs.

Declarer was in, and it was up to him to take the rest of the tricks.

In the first room, South's first step was to lead the queen of spades. West covered with the king, and dummy won with the ace.

Still feeling pleased with the success of the trump finesse, declarer led another trump from dummy. East played the six, and South played the jack. When West failed to follow suit, South moaned and groaned. East was

sure to win a trump trick, which would set the contract.

When the match was over, the luckless South player of the first room discovered how four spades had been made in the other room.

The other declarer had, after gaining the lead, led the ten of spades instead of the queen.

In the first room, when the spade queen was led, West's play of the king did not reveal the complete trump situation. In the second room, when the ten was led, West's play of the king told the whole story. West would have played a small trump if he would hope that his partner had a trump honor.

When West played the king on the ten, declarer won with dummy's ace and returned a trump. East played the six, and South confidently finessed the seven. The rest, of course, was quite easy.

**Asks Drastic Action**  
Ipoh, Malaya (P) — More troops, police, a commander-in-chief and even martial law may be needed before Malaya can hope to end Communist terrorism, said a well-known British planter, who called for "drastic action."

"There is no doubt that we stand in the path of the Communist onslaught. We must either stem that onslaught or perish in the attempt," declared J. S. Ferguson, president of the Central Perak Planting Association.

**Red Wings Capture Stanley Cup Title**  
Detroit, April 24 (P) — The National Hockey League champion Detroit Red Wings added the Stanley Cup to their hockey laurels last night as they outlasted a game New York Rangers team 4-3 in a dramatic overtime battle.

It took the Detroiters 28 minutes and 31 seconds of sudden death overtime play to break through the stout Rangers defense for the goal that gave the Wings the championship series, four games to three.

Hero's honors went to Pete Babando, hitherto considered among the lesser lights of the Red Wing squad. It was Babando who backhanded a wobbly 15-foot shot into the New York net at 8:31 of the second 20 minute overtime period to end the marathon game.

Many of the crowd of 13,095 fans didn't even see the surprise goal that ended the longest season in National Hockey League history. Babando's shot was not a clear one, but rather a sort of push shot that filtered in out of a pile of players near the New York net.

**Ban Film Glamor**  
Hong Kong (P) — Most of China's movie stars have agreed to cut out the glamor. Eighty-two leading Chinese actors and actresses are reported by the leftist newspaper To Kung Pao to have expressed willingness to adhere to a

"Inborn life pact." All 82 have taken refuge in Hong Kong which is China's Hollywood. The film industry is not subject to Red Communists' laws but has found it necessary to mainland. Shanghai was the film capital of China. Since the Red occupation of the city, however, all films must pass Red censors.

## Lutzel Case to Go

This morning's summation by John Bonomi, defense counsel, was taken up by Mr. Bonomi reviewed the case in a hour and half summation and at the conclusion stated that the jury must either find the defendant guilty of murder, first degree, or acquit him. In making this statement he said the proof which had been attempted by the prosecution was to the effect that Lutzel planned the shooting, took his gun with him on the night of the shooting and the crime was first degree murder. This version he said had been definitely overruled by the testimony which showed that Lutzel did not have the gun, that it was in the possession of Ruth Bergemann and that she was accidentally shot in a struggle for possession of the gun when she pulled the gun from her own handbag.

In his summation Mr. Bonomi charged that the prosecution had introduced numerous pictures of the dead woman and questioned

many witnesses solely for the purpose of producing sympathy for the deceased, that the pictures had been "inflammatory" and produced to exercise effect upon the jurors. He said he had been willing to concede many of the facts in the case which had been produced from testimony of witnesses, but that the prosecution had an "intrinsic motive" in bringing the witnesses to the stand.

Bonomi based his defense on the manner in which the shots took effect and argued that Ruth Bergemann could not have been shot by Lutzel in the manner in which the prosecution claimed. He argued that the first shot could not have been the one through the forehead and claimed that the first shot was the one under the right ear which he said had caused instant death and if a second shot had been fired by Lutzel after he became "panicky" that the shot was fired after she was already dead. He attacked the autopsy report and alleged that the report had been "changed" to correspond with the proof which the prosecution sought to offer.

During the summations and the charge of the court no one was permitted to enter or leave the court room.

At noon a recess was taken for five minutes and District Attorney Louis G. Bruhn then presented his summation to the jury. Mr. Bruhn indicated he would speak for about an hour in review of the case. Judge Cahlin indicated he would charge the jury as to the law and submit the case to the jury this afternoon.

## The Weather

MONDAY, APRIL 24, 1950  
Sunrise at 4:50 a. m., sun sets at 6:36 p. m., P.S.T.  
Weather, cloudy.

### The Temperature

The lowest temperature recorded on The Freeman thermometer during the night was 42 degrees. The highest temperature recorded up to noon today was 57 degrees.

### Weather Forecast

New York City and vicinity—Today cloudy followed by rain, temperatures much the same as yesterday, high 50 to 55. Occasional rain tonight and most of Tuesday. No change in temperature with low in mid-40s tonight, high Tuesday 50 to 55.

Eastern New York—Increasing cloudiness and rather cool today. Cloudy with rain Tuesday and Wednesday. Mild in south portion tonight, colder in north portion tonight.

### Boats Are Seized

Washington, April 24 (AP)—A Mexican gunboat seized seven American shrimp fishing boats in the Gulf of Mexico over the weekend, the State Department was advised today. Two of the flotilla later escaped, owners said in reports relayed by the coast guard. Department officials said there were "rumors" that the gunboat fired on the fishing vessels, but there was no confirmation of this. The incident took place about 10 miles off the Mexican coast, some 125 miles south of the Texas border, these officials said. Mexico claims its territorial waters extend nine miles at sea and the gunboat presumably acted on the assumption that the fishing craft were poaching.

### C. J. Schuh Is Killed

St. Petersburg, Fla., April 24 (AP)—State Sen. Charles J. Schuh, Jr., leader of Gov. Fuller Warren forces in the 1949 Florida House of Representatives, was shot and killed in his downtown office here this morning.
